

PROFILE

Systems Administrator with 15+ years of hands-on experience managing multi-site corporate IT infrastructure. Skilled in hybrid environments (On-Premise, Azure, M365), server virtualization (VMware/Hyper-V) and network security (FortiGate, firewall hardening). Experienced maintaining 99.9% uptime SLAs and reducing incident response time by 40% through proactive monitoring with Grafana/Checkmk. Comfortable working independently or as part of a technical team, with a strong focus on system reliability, automation (PowerShell) and day-to-day operational support.

TECHNICAL SKILLS

Virtualization: VMware ESXi, Microsoft Hyper-V, high-availability clusters and failover

Infrastructure: Windows Server, Linux (Ubuntu/CentOS), Active Directory, GPO, ADFS, DNS, DHCP

Corporate Messaging: Exchange Server (on-premise & hybrid), Microsoft 365

Storage: Dell EMC SAN, TrueNAS

Automation & Scripting: PowerShell, Bash, Power Automate, REST/JSON APIs

ERP, CRM & Service Management: Microsoft Dynamics GP, SAP Basis, ServiceNow, GLPI, Vtiger

Cloud & Hybrid Infrastructure: Microsoft Azure (user/permissions administration, VM operations, backup and storage monitoring), Microsoft 365

Network & Perimeter Security: Cisco routers & switches, FortiGate, VPN, VLAN, system hardening, corporate antivirus

Backup & Disaster Recovery: Commvault, Veritas Backup Exec, DR planning and testing

Monitoring & Incidents: Grafana, Checkmk, Power BI, webhooks, SLAs, KPIs

Databases: MS SQL Server, MariaDB, MySQL

Project & Service Management: ITIL, PM², Scrum, Kanban, Jira, Microsoft Project

EXPERIENCE

Systems Administrator N3 — Inerza-Inetel (Canary Islands Brewing Company)

03/2022 – 10/2025

- Managed 60 VMware ESXi servers (Windows/Linux) with high availability, achieving 99.9% SLA and reducing MTTD by 40% with Grafana/Checkmk.
- Administered critical infrastructure: AD, DNS, DHCP, GPO, hybrid Exchange/M365 and FortiGate perimeter security with hardening.
- Implemented intelligent monitoring with Checkmk and automated webhooks to MS Teams for real-time notifications.
- Administered multi-site corporate infrastructure across the Canary Islands and two industrial plants in La Dorada, including VM migration on Hyper-V for failover and disaster recovery.
- Planned and executed the controlled migration of 700 endpoints from Windows 10 to Windows 11 with zero operational downtime across office and industrial sites.
- Led the ITSM migration from GLPI to ServiceNow, rebuilding incident/request workflows and populating the CMDB.
- Automated AD audits with PowerShell, eliminating manual processes and generating compliance reports.

Systems Administrator N2 — Inversiones Voltaire

05/2019 – 09/2021

- Administered VMware/Hyper-V environments and corporate services (Windows Server, AD, Exchange) for a nationwide organization.
- Consolidated 8 physical hosts into 3 VMware ESXi nodes, reducing physical hardware and energy footprint by 60%.
- Deployed a VoIP PBX across sites over Site-to-Site VPN, cutting telephony costs by 80%.
- Automated processes with PowerShell and Power Automate, reducing manual intervention; designed backup/DR strategies ensuring business continuity.

IT Infrastructure Coordinator — Stellionet, C.A.

10/2014 – 04/2019

- Deployed critical infrastructure (servers, networking, Dell EMC SAN, TrueNAS), coordinating technical teams and external vendors.
- Virtualized servers with VMware ESXi in high-availability architectures; administered AD, DNS, DHCP and VLAN segmentation.

EDUCATION & CERTIFICATIONS

Higher Technician in Computer Network Systems Management (ASIR)
DigitechFP — In progress, final project (TFG) pending

Microsoft Certified Professional (MCP)
MCP ID: 3357452

Systems Engineer
Universidad Nacional Abierta — 2000 – 2006

Additional Training
PM² Essentials (TecnoFor) · Generative AI (TecnoFor) · Apollo 13 — Crisis Management

Driving licence: B

LANGUAGES

Spanish — Native
English — B2

SOFT SKILLS

- Results-Oriented
- Adaptability
- Self-Directed Learning
- Crisis Management
- Executive Communication
